Our main focus is helping employers finding their way in the complex world of insurable employment conditions.

Specific services of the Danish Desk

- Benchmark the current or new employee benefits package of the company with the local market and local competitors.
- Mapping the possible current and future risks of the existing or new EB package.
- Designing or adjusting a tailored local EB package.
- Providing specific international EB advice on expats.
- Providing yearly reports from a macro perspective for example about the GDP, inflation, unemployment rate, wage development etc. of a country.
